**Hoosier Introduces a New Drag tire to the Existing Line**

**LAKEVILLE, IND.** - Hoosier is excited to announce the latest addition to their drag tire line - the 18154D05. This new tire is specially designed to handle the roughest "No Prep" surfaces, making it the perfect choice for true "No Prep" racing. It complements the highly popular #18155C07, which has been the tire of choice for the "No Prep" scene until now.

While the 18155C07 continues to dominate the market and perform exceptionally well in all racing situations, the new 18154D05 has been tested and proven to enhance performance on less prepped and rougher surfaces. The specifications of the new 18154D05 are nearly identical to the existing 18155C07, except for a change in compound from C07 to D05.

Tire Size	Tread Width	Approx. Dia	Approx. Circ.	Recom. Rim Width	Measured Rim Width	Section Width
28.0/10.5-15	10.2"	28.0"	88.0"	8-10"	10"	12.5"
